

Signature Block Page

Below are blocks for your signature collection. Using the block template helps keep all the names consistent. Please only have one signature per box. If anyone is unhappy with their signature, please simply cross out that box and resign in a new box. We strongly recommend using a smooth-drawing black pen in order for clean crisp lines. Avoid using markers of any kind.

Please be sure to write your school name and page number(s) on the bottom of every page. When you are done collecting signatures scan and email your pages or you can mail in your pages with your order. (Please make copys of your signature pages for your records).
